

04/09/18

Dear Parent/Carer,

### **Class Setting in core subjects 2018**

By now your son or daughter will have received his or her new timetable for the new academic year. At this stage the core subjects of English, Maths and Science are yet to be set. Students will be undertaking some baseline testing in subjects during their first few lessons to allow staff to place them into the appropriate ability sets.

Students should not be worried or concerned about these assessments. They are used as an additional guide for setting rather than as a complete solution. It is also worth noting that it is quite common for adjustments to be made to setting structures throughout the year in line with students' achievements and progress within any particular set.

Once the setting has been confirmed students will receive a new timetable with the correct rooming and teacher for the new set. Should you have any questions regarding this please feel free to contact the following staff members;

Head of Maths: Mr Marling- [l.marling@eatonbank.org](mailto:l.marling@eatonbank.org)

Head of Science: Mr Kennedy-Fowler- [t.kennedy-fowler@eatonbank.org](mailto:t.kennedy-fowler@eatonbank.org)

Head of English: Mrs Lewis- [v.lewis@eatonbank.org](mailto:v.lewis@eatonbank.org)

I hope your child has enjoyed his or her first full day at Eaton Bank as a new Year 7 student and is settling in well.

Yours faithfully,

*Mrs Andrews*

Year 7 Learning and Progress Manager
